CERTSTMAS JOY.

Yesterday was the harvest of days of preparation for Christmas crops. THE EVENING WORLD'S Christmas trees were an unqualified success. Over thirty thousand children were filled to the brim with happiness. Pretty gifts, useful articles, and ne sweets were dispensed with an open-handed generosity which made those poor little hearts feel that fairy tales were weak fiction compared to the comforting reality of which they were the beneficiaries All who contributed to that simple joyful-

ness had reward enough. They made the tribution did so with all the grace and sweetness and adorable tact which makes their sex the admiration and the delight of more rudely constituted man.

THE DAY AFTER.

The charming weather this morning has on its breath the perfume of the blizzard. The Weather Bureau wags its authoritive head in a dejected way and tells us it is going to be a sweet old storm. In the apportionment of their fields of the police magistrates, it is humbly sugit the worst of the collection uld be billeted on the goat district. Of course, the labor of making such a selection will be a very onerous one. Discriminating between nice degrees of inefficlency is always trying and demands a judgand so sweet a thing to put the worst man where he can do the least good that with a sincere appreciation of the hearty and picturesque turbulence of that region where the tame goat fiercely roams, it is to be destred that the worst Police Justice may be installed therein as its due tutelary genuis,

THOSE POLICE MATRONS.

The arguments against the introduction of women into the station-houses to suband decency by caring for the prisoners of fheir own sex who may be arrested, still fail to convince true humanitarians that such an innevation will not be most salutary in

The expense of such a change need no be considered in a municipality as well able to pay for civic necessities as New York City. The statement that the bulk of the women prisoners are low, immodest and irredeemable is not of great force. They are still women, and their sex should be honored and protected. Put in the Police Matrons.
